DATA SHEET

Natural gas detector 230V AC

symbol: **OR-DC-614**

Manufacturer:

ORNO-LOGISTIC Sp. z o.o.
ul. Katowicka 134, 43-190 Mikołów
tel: 32 43 43 110

The main **features:**

Modern alarm device to detect the concentration of gas inside the rooms TEST button The device uses high-quality semiconductor sensor Additional relay output enables the transmission of a pulse to another device when the concentration exceeds the warning level (for e.g. a fan, siren, dialer) Visual and sound alarm High quality 2 separate sensors: electrochemical and semiconductor, which will ensure long-term and stable operation 12VDC power supply allowing for eg. the valve and stopping the gas supply The average life time of the internal sensor approx. 5 years.

POWER SUPPLY:
230V~, 50Hz

type

**TYPES OF DETECTED
THREATS:**
natural gas

test

Test button

ALARM VOLUME (dB):
≥70

Technical **specifications:**

General Information

Power supply:	230V~, 50Hz
Types of detected threats:	natural gas
Type of sensor:	electrochemical / semiconductor
Display:	✗ no
Test button:	✓ yes
Hush button :	✗ no
Failure indication:	✓ yes
End of life indication:	✓ yes
Alarm volume (db):	≥70
Life time of the sensor:	5 years

Dimensions (width x height x depth [mm]):	82 / 125 / 41
---	---------------

Other features:

relay output, closing function of the valve cutting of the gas supply to the installation
