

THERMA-BOOST The Heat Tool!

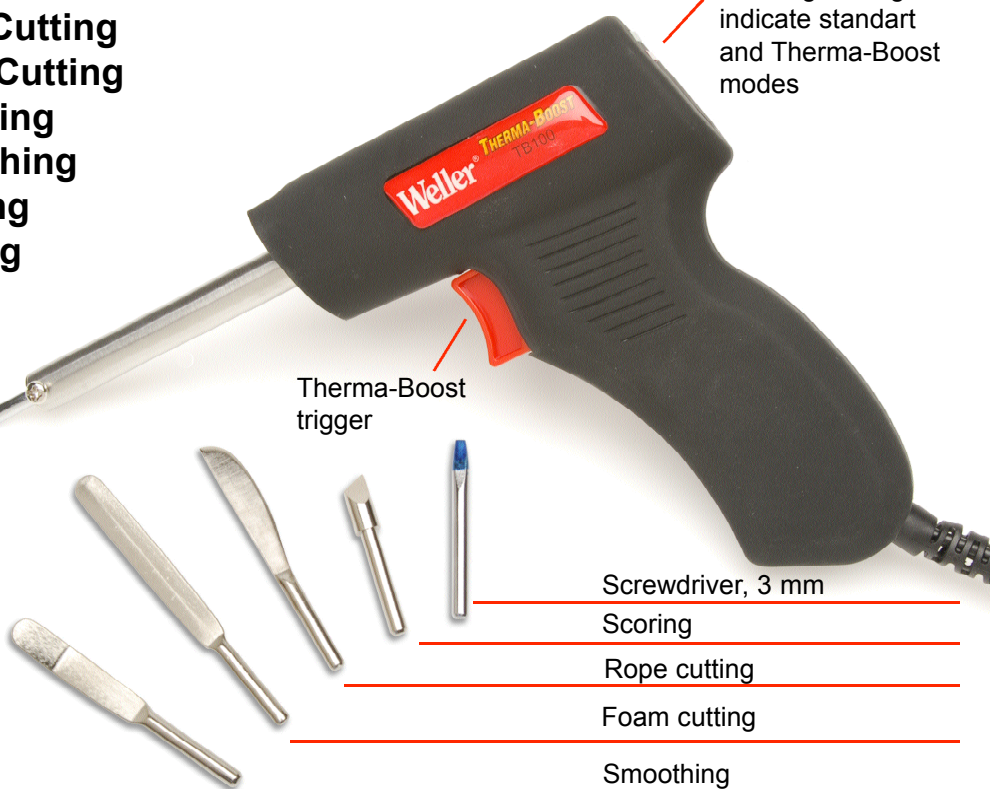

- Rope Cutting
- Foam Cutting
- Soldering
- Smoothing
- Shaping
- Scoring

Red & green lights indicate standart and Thermo-Boost modes

Conical Tip
ø 1,3 mm

Thermo-Boost trigger

When the Thermo-Boost mode is activated, the high-performance 30 W / 130 W / 230 V soldering gun reaches its maximum temperature in less than 45 sec.

The maximum operating temperature is very quickly reached through the use of the Thermo-Boost switch. In standard operating mode, it operates with an output of 30 watt. It is ideal for cutting or processing synthetic materials, foams and Styrofoam, as well as for soldering. When the Thermo-Boost switch is pressed, the red lamp lights up and an output of 130 watt makes a quick burst of heat available to you. The Thermo-Boost function works intermittently and after activation is available for use every 8 sec.

Included:

- Thermo-Boost Head Tool
- 6 Multifunction Tips
- Safety rest
- Manual

Code-No.	Description	Shelf Pack
TB100UK	Thermo-Boost Heat Tool 30 W / 130 W, 230 V	5
TB5TKEU	Replacement kit for TB100 included: Conical tip ø 1,3 mm, smoothing tip, foam cutting tip, scoring tip, rope cutting tip, screwdriver tip	3
