

2-Channel RF remote control set with Tuya IoT functionality

VM130V2SET

OPEN FIELD
RANGE: 30 M

EASY
INSTALLATION

ADAPTER
INCLUDED

DESIGNED IN
BELGIUM
MADE IN EUROPE

The VM130V2SET is a set that includes a compact universal receiver (the VM130V2-R) and transmitter (the VM130V2-T) that enable you to control devices from a distance of up to 30 meters! Furthermore, the receiver works with the Tuya IoT cloud, allowing you to control this set all over the world with the Tuya app and an internet connection.

FEATURES

- receiver:
 - two relay contact channels
 - connects to multiple transmitters
 - toggle or pulse function (selectable per output) (with Tuya app)
 - pulse function with turn-off timer (with Tuya app)
 - LED indicators: output (each channel) - power - Tuya status/ pairing mode
 - optional transmitter: VM130V2-T
- transmitter:
 - two channels
 - generates unique code
 - LED transmit indicator
 - high brightness white LED flashlight function
 - compatible with: VM130V2-R

receiver

power supply	12 VDC
max. power consumption	300 mA
2 relay contacts NO / NC	5 A @ 48 VDC (resistive load)
wireless frequency	433 MHz (RF) - 2.4 GHz (WLAN)
max. RF power transmission	< 20 dBm
dimensions	78 x 78 x 29 mm (3" x 3" x 1.14")

transmitter

power supply	12 V battery (included)
wireless frequency	433 MHz (RF)
max. RF power transmission	< 10 dBm
dimensions	63 x 35 x 13 mm (2.5" x 1.4" x 0.5")
